

ONE-DOLLAR GUESSING GAME

I. Objective

The One-dollar Guessing Game is designed to ignite people's passion for the newly emerged technology of blockchain, fueled by both intrigue and the potential for immense wealth.

II. Rules

1. Participants are required to guess the highest price of BTC from January 1, 2024 to December 31, 2024.
2. Each participant can only place a bet of one dollar per guess.
3. The individual who guessed the closest price during the entire year of 2024 will win the entire money in the fund pool.

III.Attentions

- 1.Participants can choose any type of cryptocurrency, which will be automatically converted to USDT.
- 2.The price will be obtained from Chainlink.
- 3.The final winner will receive all the money in the pool. In the unlikely event that multiple individuals simultaneously become winners, they will share the pool equally.
